

Sites offered by land owners and developers

1. Introduction

This document lists the potential building sites offered by land owners and developers as a result of the Call for Sites and subsequently offered, up to the current date of this document. These sites may have also been included in the SHLAA sites listing, NP Green spaces and Community Valued Assets listings, so cross referencing may be needed.

Within this listing a number of sites are included because a landowner or developer has identified an area of land that is different to that used in the SHLAA list/map.

2. Numbering system

In order to use a comprehensive/unique site numbering system within all NP documents the RDC - SHLAA potential building site numbers have been retained (e.g. NE 07). Other codes are used to designate sites with differing characteristics (e.g. proposed Green space allocation), therefore an individual site may have more than one number used on various maps.

Extra building sites considered as a result of the call for sites and since, to date, are numbered thus:

NE NS101, NE NS102,... = Netherfield New Sites number series – not priority ordered

BA NS101, BA NS102,... = Battle New Sites number series – not priority ordered

NOTE: A three number system has been used specifically to avoid confusion with other site numbers

3. Offered Sites – Netherfield

NOTES:

1. Not in any priority order or date of receipt
2. Area details not confirmed

No	Location description	Other references	NP map
NE NS101	Field to east of B2096 and south of Netherfield Road on Ivyland Farm - ?ha	<i>NO written references found</i>	x
