

## **Why we would like you to complete the survey.**

The survey from the Battle Neighbourhood Plan Steering Group has just been delivered through your letterbox. It may seem as though it is another cartload of questions about something that will not affect you personally.

This one is different. It is about where you live and how you can make it fit the image of the place you want to make your home. I hope you will agree that is very important.

Yes, it will take 10 minutes or so of your time, but is that not worth the effort, knowing you will have contributed to the way your community will look in the future?

The more replies we receive the more the results will mirror what you and all the residents of our Parish want to see.

So please give due consideration to completing it as soon as possible.

Thank you
